

# BILSTEIN®

## AS2 Series

### BILSTEIN AS2 Series.

#### A new legend begins.

Combining versatility and high quality performance, the all new 46mm BILSTEIN AS2 Series provides a wide range of applications in the most popular stroke lengths. The completely modular aluminum design makes the BILSTEIN AS2 Series both lightweight and quick to repair with individual replacement parts sold separately. For more adjustability, upgrade to a single or double adjustable shaft for quick tuning changes at the track.

#### Features & benefits:

- 46mm lightweight extruded aluminum body maintains tighter tolerances for superior performance
- Fine threaded body provides precise adjustments in coilover applications (coilover kit sold separately: B4-KT1-Z245A01 for non-adjustable shaft)
- Single and double adjustable shaft options available
- Hard anodized coating reduces friction while increasing durability and strength
- Monotube design provides maximum heat dissipation
- Integrated bump stop cap

#### Spring Seat Kit

For 2.5" springs, fits non-adjustable shafts.

#### Adjustment Options

Available with non, single, and double adjustable shafts.
