

BILSTEIN®

8125 Series

BILSTEIN 8125 Series.

For the off-road enthusiast.

The BILSTEIN 8125 Series is the ideal custom coilover application for competition-level performance. Featuring the highest quality machined components, the BILSTEIN 8125 Series provides durability, strength and performance in the harshest environments.

Features & benefits:

- Available in 46mm and 60mm monotubes
- Threaded body with dual-rate coilover hardware
- Monotube design for fade-free performance
- Remote reservoir for greater resistance to heat
- High temperature seal extends life of shock
- 22mm case hardened piston rod provides brute tensile strength while resisting sand blasting and rock chipping
- Zinc plated for resistance to off-road elements
- High temperature, size -8 hose
- Owner rebuildable
- Industry standard 5/8" bearing
- All components are billet machined. No cast parts
- Made in the USA

*BILSTEIN measures shock size by piston diameter. Outer body diameter is the industry standard measurement for off-road shocks.

BILSTEIN Piston Diameter	Outer Body Diameter
46mm	2.0"
60mm	2.65"
