

Why Choose BILSTEIN Motorhome Shock Absorbers?

Motorhomes are a great form of travel and recreation. But, are they a joy to drive? BILSTEIN's monotube gas pressure shock absorbers virtually eliminate the excessive sway and bouncing down the road associated with conventional shocks.

BILSTEIN's monotube shock absorbers are tested and tuned for your specific motorhome, resulting in a safe and enjoyable ride. This is why top RV manufacturers trust BILSTEIN as their original equipment supplier!

BILSTEIN's COMFITRAC™ Piston

Our patented COMFITRAC™ piston technology is designed to react to sudden changes in road conditions, reducing harshness and allowing drivers to maneuver through unexpected obstacles with ease.

- COMFITRAC™ Benefits**
- Increases sensitivity and vehicle control •
 - Reduces road harshness using high frequency bypass technology •
 - Eliminates excessive sway and bouncing •
 - Maintains a safe, smooth and comfortable ride •
 - Ensures overall vehicle stability •

Why Monotube Shocks?

- 228% larger piston allowing greater sensitivity and tighter vehicle control
- Self-adjusting degressive valving
- Better heat dissipation reducing premature shock failure
- Less moving parts than twin tube shock for better durability

BILSTEIN's Industry Leading Monotube Design

Provides superior tube strength while maximizing heat dissipation and shock life.

One Piece Aluminum Rod Guide & Seal

Keeps dirt out and maintains a nearly friction-free surface for longer life.

Large Self-Adjusting Degressive Piston

Instantly reacts to any road condition. Whether you travel on smooth, rough or dirt roads, BILSTEIN Shock Absorbers will provide maximum vehicle body motion control for superior comfort.

High Pressure Nitrogen Gas & "Floating" Dividing Piston

Eliminates the possibility of oil foaming and performance loss.
