

thyssenkrupp Bilstein of America

Aftermarket & Motorsports Headquarters

August 28, 2018

Dear Bilstein Distributor,

The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65) is a right to know regulation that requires specific warnings to be applied on products containing chemicals found on the Prop 65 list (www.P65Warnings.ca.gov) when shipped or sold to consumers in the State of California.

After conducting further due diligence in regard to the compliance requirements of the Proposition 65 regulation, tk Bilstein of America has made the decision to place a clear and reasonable warning on all of our product packaging.

The on-product “short form” warning format will be used to comply with the requirement to provide a safe harbor clear and reasonable consumer product warning. The warning for all our products will be:

WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov

This format will be required for any product catalogue and/or in website information relating to our products.

For all Bilstein products which you have in stock we will be providing a supply of the short form warning labels which are required to be applied to our products ensuring compliance with the regulation. Should you need more labels please email Prop65labels@BilsteinUS.com. We appreciate your co-operation in working with us to meet this regulatory requirement.

Please confirm receipt of this notification by signing the acknowledgment section below and return to Karen Bozier, karen.bozier@thyssenkrupp.com. Should you have any questions on this topic please feel free to contact Karen at 858-386-5997 or your Customer Service Representative.

Kind regards,

Steven Beaty
President Aftermarket & Motorsports

Karen Bozier
OHS Safety Advisor

I acknowledge receipt of the above notification from tk Bilstein of America, Inc. regarding this Proposition 65 labeling requirement.
